

As a Indiana resident I have signed up for both the state and federal "do not call" list. After over a year now that Indiana initiated this effort I am just now feeling comfortable with answering my own phone. After myself and my wife work all day we only have a few hours of time with our children, the last thing I want is trying to get a "hell-bent" salesperson off of my phone. I can't imagine going back to fearing answering my own phone in the privacy of my home.

Please do not allow any group or big money cooperate America to invade my families little bit of privacy and sactuary that we have left. Do not support any weakening of Indiana's Telephone Privacy Law.

Thank you for your consideration,

Jeffrey Connor & Family
